# TABLE OF CONTENTS

## INTRODUCTION

1. What is the ELTMT and its purpose? ........................................... 1
2. The overview of the ELTMT structure .......................................... 1
   A. The reading test ............................................................. 2
   B. The speaking test .......................................................... 4
3. How is the ELTMT administered? ............................................... 7
4. How is the ELTMT scored? ...................................................... 8
5. How is the ELTMT Score Graded? ............................................ 10
6. Who is the ELTMT developed for? ........................................... 10

## PHASE I READING TEST OF ELTMT

1. The instruction for the Test Takers ........................................... 12
2. Part 1a ..................................................................................... 13
   - Section 1a
3. Part 1b ..................................................................................... 18
4. Part 1c ..................................................................................... 24
5. Part 1d ..................................................................................... 30
6. Part II ....................................................................................... 33
7. The reading test answer sheet .................................................... 40

## PHASE II SPEAKING TEST OF ELTMT

1. The instruction for the test takers ............................................. 42
2. Task One: A Partly Teaching Performance: a Role-Play .......... 43
3. The List of the Three Parts of Teaching Activities ..................... 44
4. Example Sheet ........................................................................ 46
5. The list of instructional materials for the teaching task

I. WHAT IS ELTMT AND ITS PURPOSE?

- ELTMT (Mathematics English Test for Teachers) is a specific purpose language test of English that measures the English proficiency of mathematics teachers and NOT measures the teacher’s teaching skills or mathematics content mastery. This test measures the specific English language proficiency of RSBI mathematics teachers in using English in teaching mathematics. RSBI refers to the Rintisan Sekolah Bertaraf Internasional (The International Standard School).

- ELTMT is designed as a performance-based test consisting of a mixture of a test of reading and tasks of speaking by which the teachers’ specific communicative language abilities are measured.

- This test consists of the Reading test and the Speaking test and blank answer sheets, test examples, an answer key sheet of the Reading test, and the Analytical Scoring Scale Guide for the Speaking test.

- The estimated total test time for ELTMT is 2 hours 10 minutes.
