## **DEDICATION**

This thesis is honorably dedicated to:

1. My beloved father, the late H. Fachrur Rozi and my beloved mother Siti Afnani.  
Thank you very much for your endless love.
2. My husband Joko Susilo, and also my little angle, Yasmin Arrayyanah. You are my spirit.
3. My nice sisters, ka'Ufa and ka' Unung. Thanks for being my best friend.

## ACKNOWLEDGEMENT

All praise is for Allah S.W.T, the most Gracious and the most Merciful. May He send peace and blessings to Muhammad, his family, and his companions.

I thank Allah, for giving me strength so I can finish my thesis entitled **“A Descriptive Study on the Expro-2 Students’ Speaking Ability in Performing Speaking through Making Riddle use Describing at Excellent English Course, Pare, Kediri”**

I would like to express my deepest appreciation and sincerest thanks to the following people:

1. the Dean of the Faculty of Teacher Training and Education, Jember University,
2. the Chairperson of the Language and Arts Department,
3. the Chairperson of the English Education Programs,
4. my first consultant, Drs. Annur Rofiq, M.A, M.Sc., and my second consultant, Siti Masrifatul Fitriyah, S.Pd. M.A., for their guidance and valuable suggestions in accomplishing this thesis,
5. the examination committee,
6. the lecturers of the English Education Program who have taught and given me a lot of knowledge,
7. the director, the instructors, and the students of Expro-2 at Excellent English Course who helped and participated willingly to involve in this research,

I believe that this thesis still has some weaknesses. Therefore, I really hope that there will be criticism and suggestions from the readers to make this thesis better. I also hope that this thesis will be useful for the readers.

## SUMMARY

**A Descriptive Study on the Expro-2 Students' Speaking Ability in Performing Speaking through Guessing Game at Excellent English Course, Pare, Kediri;** Lu'lu il Maknun; 070210491142; 2012; 48 pages; English Language Education Study Program, Language and Arts Department, the Faculty of Teacher Training and Education, Jember University.

This research was intended to describe the Expro-2 students' ability in performing speaking through guessing game at Excellent English Course. Excellent English Course was chosen by purposive method with the following considerations: (1) guessing game has been applied in the speaking classes at Excellent English Course since 2009, (2) there was no research investigating the phenomena in this English Course, (3) the director had given permission to the researcher to conduct the research, so that the data could be obtained from this course. The respondents were the Expro-2 students of Excellent English course. They were divided into 2 classes and each class consisted of 18 students. Thus the total number of the students were 36 students. In this research, the researcher used population method to determine the respondents, because the number of the respondents was fewer than 100. The main data were collected by using speaking ability test, while the interview, observation, and documentation were used to collect the supporting data.

The question of this research was "How is the Expro-2 students' speaking ability in performing speaking through guessing game at Excellent English Course?" Based on the results of the data analysis, it was found that among 5 indicators, the highest score of students' ability in performing speaking through guessing game was on content 81.7/excellent category. Then, it was followed by vocabulary which was 75/good category. Next, fluency was also on good classification, in the average of 70.8. It happened due to the fact that the students felt comfortable and excited in performing speaking through guessing game. Therefore, so they could speak and express the ideas easily. In contrast, the lowest indicator was pronunciation with the

percentage of 67.5/fair category. It happened because the instructor gave a little time to practice pronunciation. Also in speaking class, usually the instructor focused on students' fluency. The last is students' grammar, with the percentage of 68.3/fair category.

Related to the teaching learning process of speaking ability through guessing game, the students seem to happily participate in the activities. It shows that games help to encourage students' participation and motivation in the activities during the teaching learning process.

In general, from the average score, most of the respondents got low score on pronunciation and grammar. Therefore, the instructor should give more exercises to the students to improve students' grammar and pronunciation.
