Subject: Abstract Acceptance  
To: <[azkadarajat96@gmail.com](mailto:azkadarajat96@gmail.com)>  
Cc: <[lemiliana15@yahoo.com](mailto:lemiliana15@yahoo.com)>

Dear dr. Azka Darajat

Thank you for submitting the abstract to the 27th Annual Scientific Meeting of PERBANI (PIT PERBANI 2019), upcoming Oct 1-4th, in Malang East Java.

We are pleased to inform you that the following abstract which you submitted has been selected for an **short oral presentation**.

Abstract submission number : 035

Abstract title :

Description of Inpatient Pediatric Surgical Procedure in dr Soebandi Hospital Jember

Note:

- (1) Accepted first authors must complete registration by September 9th (Mon), 2019. If the first author has not registered by then, the abstract will be excluded and won't be published in the program book.
- (2) The timing and location of the presentation will be sent out as we finalize program, by Sept 20th (Fri), 2019 at the latest.
- (3) The detailed session information including presentation style (oral/eposter) is still under consideration at this moment, and will be informed later.

# Description of Inpatient Pediatric Surgical Procedure in dr. Soebandi Hospital Jember

Azka Darajat<sup>1</sup>, Gilang Vigorous<sup>1</sup>, Supangat<sup>2</sup>

<sup>1</sup> Clinical Clerkship Student, dr. Soebandi General Hospital, Faculty of Medicine, University of Jember, East Java

<sup>2</sup> Department of Surgery, dr. Soebandi General Hospital, Faculty of Medicine, University of Jember, East Java

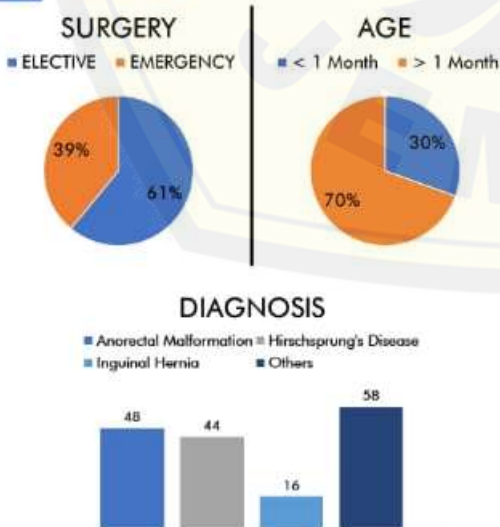

## 1 BACKGROUND

The number of pediatric patients died because congenital abnormality is increasing<sup>1</sup>. Data about pediatric patient is important for future research research. There is still no data about pediatric patients that were operated in dr. Soebandi general hospital.

## 2 METHOD

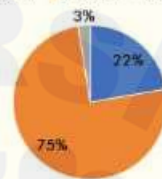

This report was using retrospective descriptive method. The Data is the number of pediatric patients < 14 years old who were operated in dr. Soebandi general hospital at 2018. We analyzed the number of elective or emergency surgery, age, diagnosis, payment status, domicile, and duration of surgery.

## 3 RESULT

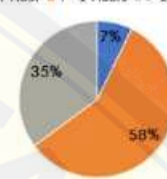

## PAYMENT STATUS

BPJS FBI, BPJS NPBI, PERSONAL

## DURATION OF SURGERY

< 1 Hour, 1 - 2 Hours, > 2 Hours

## DOMICILE

Jember, Bondawoso, Lumajang, Situbondo, Probolinggo, Banyuwangi

## 4 DISCUSSION

- Congenital anomalies are the most common group of pediatrics condition that requires surgery<sup>2</sup>.
- Hirschsprung disease is the leading congenital anomalies.
- High congenital anomalies might be due to general surgical conditions and age > 14 years old are handled by general surgeons and lower type hospital<sup>2</sup>.

## 5 CONCLUSION

This report is the first to characterize pediatric patient that had surgery in dr. Soebandi Hospital. Most of the patient were going through elective surgery. Most of the patient have congenital disorder. We hope the data could be used for future research of pediatric surgery in Jember.
