When the sun is shining, the children go to the farm to see the sheep. They
like to see the sheep and to see the sheep. They like to see the sheep and to see the sheep.

Memorized these to present to my friends. "Look my dear ones!"
They gathered 'round, they gazed, "You did not forget, that's right."
I was proud to display.

"The teacher explained that the technology you could find at the science museum was amazing. It was called 'Project Earth'. The kids had never seen anything like it before. It was a big screen that showed the Earth from space. The teacher said that the technology was very important because it helped us understand our planet better."

"Then the kids were asked to write a story about the technology they saw. The teacher said that the technology was very important because it helped us understand our planet better. The kids were very excited and they all wrote stories about the technology they saw. The teacher said that the technology was very important because it helped us understand our planet better."
