JURNAL PEMBELAJARAN FISIKA (JPF)

Terbit empat kali setahun pada bulan Juni, September, Desember, Maret. Berisi artikel yang diangkat dari hasil penelitian dan non penelitian bidang Fisika dan Pembelajaran Fisika

Ketua Penyunting

Drs. Albertus Djoko Lesmono, M.Si

Wakil Ketua Penyunting

Rif'ati Dina Handayani, S.Pd, M.Si
Sri Wahyuni, S.Pd, M.Pd

Penyunting Pelaksana

Drs. Sri Handono Budi Prastowo, M.Si
Dra. Tjiptaning Suprihati, M.S
Drs. Subiki, M.Kes
Dra. Sri Astutik, M.Si
Drs. Trapsilo Prihandono, M.Si
Drs. Bambang Supriadi, M.Sc
Dr. Drs. Agus Abdul Gani, M.Si
Drs. Alex Hariyanto, G.Dip.Sc
Supeno, S.Pd, M.Si

Tata Letak

Drs. Maryani
Pramudya Dwi Aristya Putra, S.Pd.,M.Pd.
Rayendra Wahyu Bachtiar, S.Pd.,M.Pd.

Penyunting Ahli

Prof. Dr. Sutarto, M.Pd
Prof. Dr. Lambang Subagyo, M.Sc (Unmul)
Dr. Indrawati, M.Pd
Dr. Yushardi, S.Si, M.Si
Dr. I Ketut Mahardika, M.Si
Dr. Sudarti, M.Kes

Pelaksana Administrasi

Erni Midiawati, S.Si

Abstract

This research is aimed to: (1) examine the differences between the student's achievement using creative problem solving model with experiment method; (2) examine the student's activities in class using creative problem solving model with experiment method; (3) to know the student's response after physic learning using creative problem solving model with experiment method. This research was "Experimental" reserach and used "randomized post test only control group" for the design. The method to collect data in this research are observation, documentation, interview, test and questionnaire. The data analysis that used are: (1) t-test; (2) the percentage of student learning activities. The result of this research showed that the difference between student's achievement in class using creative problem solving model with experiment method and conventional learning class is significant; (3) the percentage of student's response. Student learning activities in learning that used creative problem solving model with experiment method in the experiment class is 79,7 %, it involve in very good category. Student's response that used creative problem solving model with experiment method in the experiment class is 82,15%, it involve in very good category.

Keyword: creative problem solving model, experiment method.
