DEDICATION

This thesis is honorably dedicated to :

- 1. My beloved parents, H. M. Baijuri S.Pd and Hj. Atmiah. Thank you so much for everything that you have given to me. This thesis is proudly dedicated to you for your endless love.*
- 2. My beloved brother, Andi Kusuma. Thank you for your support.*

MOTTO

“Vocabulary enables us to interpret and to express. If you have a limited vocabulary,
you will also have a limited future”

(Jim Rohn)

ACKNOWLEDGEMENT

First and foremost, I would like to express my greatest gratitude to Allah SWT for blessing me and giving me strength so that I can finish writing the thesis entitled “Improving the Seventh Grade Students’ Vocabulary Achievement by Using Flashcards at SMP Negeri 3 Lumajang”. In relation to the writing and finishing of this thesis, I would like to express the deepest and sincerest thanks to:

1. The Dean of Faculty of Teacher Training and Education, Jember University.
2. The Chairperson of the Language and Arts Department
3. The Chairperson of English Education Programs.
4. The first and second consultants, Drs. Bambang Suharjito, M. Ed., and Dra. Made Adi Andayani T., M. Ed. For spending their time and giving me suggestions and ideas to make my thesis better.
5. The lecturers of the English Education Program who have given me moral supports to work harder in my attempt to complete this thesis.
6. The Principal and the English teacher of SMP Negeri 3 Lumajang for giving me an opportunity, help, and support to conduct this research.
7. The seventh grade students of SMP Negeri 3 Lumajang in 2013/2014 academic year especially class VII D.

I believe that this thesis might have some weaknesses. Therefore, any criticism from those who really want to improve the thesis will be wisely appreciated.

SUMMARY

Improving The Seventh Grade Students Vocabulary Achievement by Using Flashcards at SMP Negeri 3 Lumajang ; Nurul Khomariyah: 080210401010; 2013; 50 pages; English Education Program; Language and Arts Education Department; the faculty of Teacher Training and Education; Jember University

This classroom action research was intended to improve the seventh grade students' vocabulary achievement at SMP Negeri 3 Lumajang. The subjects of this research were class VII D. This research was done in two cycles in which each cycle covered four activities namely: planning of the action, the implementation of the action, classroom observation and evaluation, analyzing the data and reflection. This primary data about the students' vocabulary achievement were collected by using vocabulary test and class observation. The: 1) at least 75% of the students got score ≥ 73 (good score category) and 2) at least 75% of the students were actively participated in the teaching learning process of vocabulary by using flashcards. Meanwhile, the supporting data were collected by using interview and documentation.

The results of the vocabulary test after the action in the first cycle showed that the percentage of the students' who got good score category (≥ 73) was 62.5% (20 students). The cycle of this research was considered successful if 75% of the students got score ≥ 73 (good score category). It means that the target percentage of the students gaining ≥ 73 (good score category) had not been achieved yet. The observation was conducted by using the observation checklist containing some indicators, namely: 1) The students pay attention to the lesson 2) The students raised their hands when the teacher gave oral questions about the flashcards, 3) The students answered the teacher's oral question, 4) The students did the vocabulary exercises. In Cycle I, the results showed that there were 22 students or 68.75% who were actively participated in the teaching learning process of vocabulary in the first meeting and there were 23 students or 71.87% who actively participated in the teaching learning

process of vocabulary in the second meeting. Therefore, the actions were contained in Cycle II, by revising the teaching techniques in Cycle I. The revising teaching techniques were:

1. The pictures were made bigger.
2. The researcher and the teacher improved the frequency of showing flashcards into five times.
3. The teacher and the researcher added the period of time to flash the picture into eight second.

Having conducted the action in cycle II, the results of vocabulary test showed that the percentage of the students who got scores ≥ 73 increased from 62.5% (20 students) in Cycle I to 78.12% (25 students) in Cycle II. In Cycle II for the first meeting, there were 26 students of 32 students (81.25%) who were actively participated in the teaching learning process. In the second meeting, there were 27 students of 32 students (84.37%) who actively participated in teaching learning process. It means that the students were more active in Cycle II than in Cycle I.

Based on the result, it could be concluded that the use of flashcards could improve the students' vocabulary achievement and their participation in the teaching learning process. It is suggested that the teacher vary their teaching techniques by using various media or teaching aids, for example flashcards to improve the students' vocabulary achievement. The students are suggested to be more active in the learning activities in the class to improve their vocabulary achievement.
